

INTRODUCING THE...

# METAL LINE SERIES™

VERSATILE. DURABLE. BEAUTIFUL.

A steel roof from the **Metal Line Series™** will add beauty and character to your home regardless of size and shape and will protect it for years to come with superior durability. **Metal Line Series™** quality ensures that our steel roof is the last roof your house will ever need.

## THIS NEW, INNOVATIVE STEEL ROOF IS MADE ESPECIALLY FOR CONTRACTORS AND DIY'ERS.

From the moment asphalt shingles are installed the shingles begin to deteriorate. This deterioration continues and then accelerates over their short life span. **Metal Line Series™** steel shakes do not deteriorate and because the cost of steel and installation of a steel roof are constantly increasing, the value of a steel roof increases as well, adding more value to your home.

A **Metal Line Series™** roof can be installed over most existing asphalt shingles. This procedure eliminates the need for costly disposal and reduces the amount of material that is sent to our already overburdened landfill sites. The asphalt shingles also act a sound barrier and an extra layer of insulation against snow and the sun's rays.

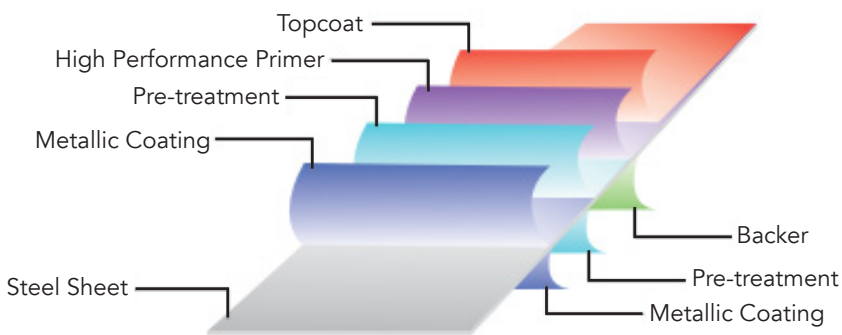

Your roof is a part of your largest investment – your home. It deserves the highest quality protection you can give it. More durable than asphalt and other materials; **Metal Line Series™** is the best long-term value you will find.

Each 12" steel shake locks on all four sides with screw lock technology and concealed fasteners. With our Canadian winters the colour matched snow guards help control snow in high intensity areas.

NOT ONLY IS METAL  
LINE SERIES™  
DURABLE, IT IS  
AESTHETICALLY  
PLEASING AND  
ENHANCES  
THE VALUE OF  
YOUR HOME!

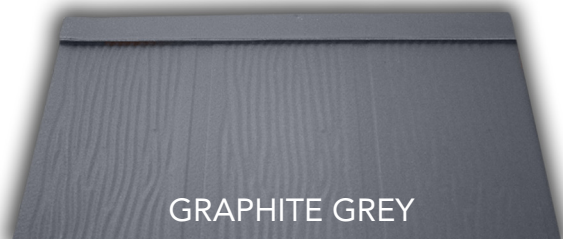

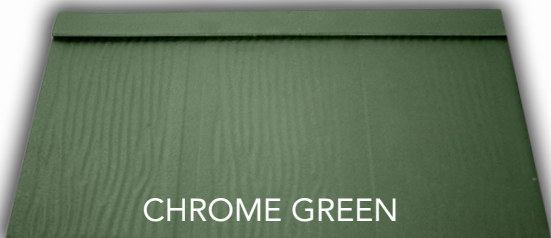

**Metal Line Series™** is manufactured from Canadian made Granite® Deep Mat (GDM). Coated 28 gauge, galvanized, recycled steel that is strong, light and durable. This Canadian made pre-coated steel is superior to other steel made off-shore.

**Metal Line Series™** withstands high winds, heavy snow loads and hail. It will not split, crack, chip or blister and is backed by the steel manufacturer's 40-year warranty.

# BY PURCHASING A METAL LINE SERIES™ ROOF, YOU WILL JOIN THE MANY SATISFIED HOMEOWNERS WHO HAVE CHOSEN PERMANENT ROOFING SOLUTIONS.

**Metal Line Series™** offers six beautiful colours to choose from. These colours resist fading due to the colour being embedded right in the Granite® Deep Mat (GDM) coating. A **Metal Line Series™** roof will maintain its colour and beauty for a lifetime.

SAVE MONEY. INVEST IN A METAL LINE SERIES™ ROOF, THE LAST ROOF YOUR HOME WILL EVER NEED.
